

Remote and Hybrid Work Policy

Document owner: People Operations Version 3.0, effective 2026-04-01 Supersedes: Version 2.4, effective 2025-01-15 Applies to: all TechLance Solutions employees

Work arrangements

TechLance supports three arrangements. An employee's arrangement is recorded in the People Operations portal and is set with their manager.

Arrangement	Definition
On-site	Four or five days per week in an assigned office
Hybrid	Two or three days per week in an assigned office
Fully remote	No regular office attendance required

Core collaboration hours are 10:00 to 15:00 in the employee's assigned time zone regardless of arrangement.

Eligibility

Fully remote arrangements require: - Six months of continuous service, **except** for roles hired explicitly as remote, which are eligible from the start date. - A role whose responsibilities do not require physical presence. Client delivery roles with on-site commitments are not eligible while that commitment is active. - Manager approval, recorded in the portal.

Hybrid arrangements are available to all employees whose role permits, with no service requirement.

Change from Version 2.4

Version 2.4 of this policy granted the Technology Stipend to fully remote employees only. **Effective 2026-04-01, both hybrid and fully remote employees are eligible** for the Technology Stipend. On-site employees remain ineligible.

Employees who were denied the stipend under Version 2.4 and are now eligible must submit a new request; eligibility is not applied retroactively and back payment is not issued.

Equipment and stipends

Standard equipment. All employees receive a laptop, monitor, keyboard, mouse, and headset. Equipment remains TechLance property and must be returned within 10 business days of separation.

Technology Stipend, Monthly Internet Allowance (\$75.00 per month). Available to hybrid and fully remote employees. Covers home internet service. Requires an active arrangement recorded in the portal.

Cell Phone Allowance, Monthly Communications (\$65.00 per month). Available to employees whose role requires regular client or on-call contact, independent of work arrangement. Manager attestation of role requirement is needed.

Home office furniture is not provided and is not reimbursable under this policy or the Expense and Travel Policy.

Workspace requirements

Remote and hybrid employees must maintain a workspace that permits: - A private, uninterrupted environment for calls involving client or personnel information. - A network connection meeting the minimum specification in the Information Security and Acceptable Use Policy. - Secure physical storage for any TechLance equipment.

Working from a public network without the company VPN is prohibited. See the Information Security and Acceptable Use Policy.

Working from another location

Temporary domestic relocation. Employees may work from another location within their home country for up to 30 consecutive days per calendar year with manager notification. No approval is required, but the manager must be informed before travel.

International work. Working from outside the employee's country of employment, for any duration, **requires advance review by People Operations and Finance** because of tax and employment law implications. **Approval is not routine and outcomes vary by country and duration.** Employees must not book travel with an expectation of approval. Requests submitted with less than 30 days notice are generally not reviewable in time.

Permanent relocation. A change to the employee's home location may affect compensation, which is set by market. Contact People Operations before committing to a move.

Office attendance for hybrid employees

Hybrid employees agree office days with their manager. Departments may set a common anchor day for team collaboration. Attendance is not automatically tracked, and managers are expected to manage by outcome rather than by presence.

Changing an arrangement

Either the employee or the manager may request a change. Changes take effect at the start of the following month. A manager who requires an employee to increase office attendance must give at least 30 days notice and a stated business reason.

Questions

Arrangement and eligibility questions go to People Operations. Equipment questions go to IT Support.
