

Expense and Travel Policy

Document owner: Finance Version 6.0, effective 2026-02-01 Applies to: all TechLance Solutions employees and contingent workers incurring company expense

Principle

Spend company money as you would your own, on things that serve a business purpose, and be able to explain the spend to someone who was not there.

Where this policy does not address a situation, apply that principle and ask Finance before incurring the cost rather than after.

Approval thresholds

Amount (single expense)	Approval required
Under \$100	None; submit with receipt
\$100 to \$999	Manager approval
\$1,000 to \$4,999	Manager and department lead approval
\$5,000 and above	Manager, department lead, and Finance approval, in advance

Splitting a single purchase into smaller amounts to avoid a threshold is a Code of Conduct violation.

Submission

Submit expenses in the Finance portal within **45 days** of the expense date. Submissions after 45 days require a written explanation and department lead approval, and may be declined.

Itemized receipts are required for every expense of \$25 or more. A credit card statement is not an itemized receipt. Lost receipts require a signed missing receipt declaration, which is permitted twice per calendar year per employee.

Reimbursement is paid with the next semi-monthly payroll following approval.

Travel

Booking. Book through the company travel platform. Bookings made outside it are reimbursed only up to what the platform would have charged on the booking date.

Advance booking. Book flights at least 14 days in advance where the trip is known. Late bookings require a stated reason.

Air travel. Economy class for flights under six hours. Premium economy is permitted for flights of six hours or more. Business class requires department lead and Finance approval in advance and is not routinely granted.

Accommodation. Up to \$250 per night in major metropolitan areas and \$175 elsewhere, excluding tax. Above these caps requires advance manager approval with a stated reason, such as a conference venue rate.

Ground transport. Standard rideshare, taxi, or public transport. Rental cars where they are the practical option; premium vehicle classes are not reimbursed. Personal vehicle mileage is reimbursed at the current IRS standard rate.

Meals while traveling. Actual reasonable cost up to \$75 per day domestically and \$100 per day internationally, including tax and gratuity. Itemized receipts required at \$25 and above. TechLance does not use a flat per diem; unspent amounts are not payable to the employee.

Alcohol is reimbursable only as part of a client meal and must be itemized separately. It is not reimbursable on solo travel.

Conference travel

Conference **registration fees** are funded under the Tuition Reimbursement and Professional Development Policy, up to \$850.00 per year, and are submitted through that process.

Travel, accommodation, and meals for a conference are **not** drawn from that allowance. They are submitted as ordinary travel expense under this policy and are subject to the caps above.

An employee attending a conference therefore submits two separate requests. Submitting conference travel against the professional development allowance is a common error and will be returned for resubmission.

Client entertainment

Client meals and entertainment require a business purpose and the names of attendees recorded on the submission. Gift and hospitality value limits in the Code of Conduct apply. Anything involving a government official requires prior Legal and Compliance approval regardless of value.

Not reimbursable

- Home office furniture (see the Remote and Hybrid Work Policy).
- Commuting between home and an assigned office, for any arrangement.
- Traffic and parking fines.
- Personal entertainment, including in-flight movies and hotel minibar.
- Travel insurance purchased separately; the company policy covers business travel.

- Expenses for a spouse, partner, or family member accompanying an employee.

Corporate cards

Issued to employees who travel regularly. The card is for business expense only. Personal use, even where promptly repaid, is a policy violation.

Cardholders reconcile transactions within 45 days. Repeated failure to reconcile results in card suspension.

Questions

Expense questions go to Finance. **Finance determines whether a specific expense is reimbursable under this policy; managers may approve within their threshold but cannot authorize an expense this policy excludes.**
